EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Specification:

Page 1:

The paragraph following the heading "CLAIM TO THE BENEFIT OF RELATED APPLICATIONS" has been changed to the following:

This application is a divisional of and claims the benefit under 35 U.S.C. §120 of U.S. application Serial No. 09/962,255, filed September 26, 2001, now U.S. Patent No. 6,729,010, which is a divisional of U.S. application Serial No. 09/301,589, filed April 29, 1999, now U.S. Patent No. 6,325,435, which is a continuation-in-part of U.S. application Serial No. 08/952,446, filed November 20, 1997, which is a §371 of PCT/US97/12560, filed July 24, 1997, which is a continuation-in-part of U.S. application Serial No. 08/686,554, filed July 26, 1996, now U.S. Patent No. 5,791,713.

Claims:

Claim 47:

In line 19, "intake" (first occurrence) has been changed to --exhaust--.

Claim 59:

In line 2, "intake" (last occurrence) has been changed to --exhaust--.

Art Unit: 3726

These claim changes were made to fix obvious typos, and were not made to alter the scope of the invention in any way. Both claims recited the phrase "air intake vents located above the air intake vents" but the air intake vents cannot be "located above" themselves. It was clearly applicant's intent to recite that the air intake vents are located above the air exhaust vents. This arrangement is depicted in Figure 5, where the air intake vents 129v are located above the air exhaust vents 127v.

CONTACT INFORMATION

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David P. Bryant whose telephone number is 571-272-4526. The examiner can normally be reached on Monday-Thursday (6:30-5:00).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, George Nguyen can be reached on 571-272-4491. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
